ABOUT THE CONFERENCE

Companies of the logistics/mobility industry in the region of Southeast Europe strive to raise their business to a higher level and be competitive in the European market in the years to come.

This requires the transfer of knowledge and technologies and the constant exchange of information about standards and trends in European and non-European markets.

This conference brings to our region experts from leading European development centers and hi-tech companies from Belgium, United Kingdom and Italy who will present the technologies necessary to increase the efficiency and competitiveness of the logistics/mobility industry and reach ESG standards.

AGENDA
